Summary of cover

Our standard cover

The following table provides a summary of the **standard cover** provided by each of our plans. (See [Choosing the plan that's right for you](#) on page 12 for a description of our different plans.)

For full details of the cover provided by each plan under each event see [Part B. Events \(when you're covered\)](#) on page 26.

You should also read the full PDS in order to understand all conditions and exclusions that apply. In particular see [Part A. Getting to know your cover](#) on page 9, [Part C. Things we'll never cover](#) on page 71 and [Part D. Making a claim](#) on page 73.

Limits

'Trip limits' are shown below for each **expense (and benefit) type**. These are the maximum amounts we'll pay in total for that **expense (or benefit) type** across any and all claims for all events that relate to **your trip**. Some **expense types** share a single **trip limit** with other **expense types** – these are marked as having a 'combined limit'. See [How do trip limits work?](#) on page 74 for more information.

Further, some **expense types**, such as Standard luggage costs, also have sub-limits – or other maximum amounts – that apply. (Where these apply, this is noted in the table below. You should turn to the full event description for details.)

Excesses

Our cover includes an **excess** which is shown on your Certificate of Insurance (COI). An **excess** is effectively your contribution towards your out-of-pocket expenses if you make a claim. See the [What you can claim](#) section within each event in [Part B](#) to find out when an excess applies. See [Your policy excess](#) on page 14 for more information on excesses.

+ Optional cover

In addition to our **standard cover**, we also offer the following options to enable you to tailor your cover. Where there is an option to increase your cover for a particular **expense type** listed below, we indicate this in the table. (To make identification easier, options are marked with a +.)

+ An existing medical condition
that isn't automatically accepted (see page 16)

+ New for Old Luggage Cover
(see page 21)

+ Sports and Leisure Equipment
(see page 20)

+ Extra Cancellation Cover
(see page 13)

+ Extra Rental Vehicle Insurance Excess Cover
(see page 25)
This option is not available if you buy the Basic plan

+ Excess Buy-out Option
(see page 14)
This option is not available if you buy the Domestic or AFT plans

+ Winter Sports Option (optional cover)

If you're taking part in a **winter sport** or activity on **your trip**, you must select the Winter Sports Option at the time you buy your policy and pay the advised additional premium to be covered under all the **events** provided by our **standard cover**. (See [Winter Sports Option](#) on page 23 for more details.)

+ Taking a winter sports holiday? (optional cover)

There is no **standard cover** under any of our plans when you participate in a **winter sport**. However, we do have a Winter Sports Option that you can purchase at the time you buy your policy. When you purchase the Winter Sports Option you will be covered for the events outlined in [Your winter sports holiday doesn't go to plan \(optional cover\)](#). See page 69 for details.

Part A: Getting to know your cover

1. Who, where, what, when and how much?

Who can get cover?

We insure everyone shown on your Certificate of Insurance (COI) provided they're eligible for cover.

To be eligible for cover, you must have a permanent home in Australia and either:

- be an Australian citizen or a permanent resident of Australia;
- be on a skilled working visa (including 457 and Temporary Skill Shortage (TSS) visa), but not a working holiday visa;
- have a partner/spouse visa which allows you to stay in Australia for at least 2 years; or
- be a New Zealand passport holder.

In addition, you must have unrestricted right of entry into Australia as well as access to long-term medical care in Australia (not including medical care under a Reciprocal Health Care Agreement).

We reserve the right to refuse cover or impose special conditions on anyone who applies for cover.

Is there an age limit?

There's no age limit for our Comprehensive international and Domestic plans. However, we may ask you some questions about your health and lifestyle at the time you buy your policy and then determine whether we will offer you cover and on what terms.

For our Basic international and Annual Frequent Traveller plans however, all primary travellers must be under 76 years of age at the time you buy your policy.

Taking the kids? They're usually covered for no extra charge!

If your children (and grandchildren) travel with you for the majority of your trip, we'll cover them under your policy as dependants at no extra charge, provided that they:

- are under 25 at the time you buy your policy;
- don't have a full time job; and
- are shown on your COI as an Insured Dependant.

However, if they need cover for an existing medical condition, there may be an additional premium.

Where am I covered?

When you buy your policy, we'll ask you to list the countries you intend to visit.

If you're buying a policy for a single trip and travelling:

- **Only in Australia** – we'll sell you our Domestic plan.
- **To countries other than Australia** – you can choose between two international plans – our Basic plan and our Comprehensive plan.

If you're not sure exactly which countries you'll visit, or you want some flexibility in your plans, you can list the regions you're travelling to (rather than just countries). You are covered for all countries (or regions) shown on your COI. For example, you can say you're travelling to France, Europe, North America, South America or even Worldwide.

If you're planning to take more than one trip over a 12 month period, you may want to consider our Annual Frequent Traveller (AFT) plan. See [Choosing the plan that's right for you](#) on page 12.

Cruises

You are covered for travelling on a cruise as part of our standard cover. To be covered when cruising outside Australian coastal waters, you will need to purchase one of our international plans or our AFT plan. There is, however, no cover under any events when you are on a cargo ship or freighter.

'Do Not Travel' warnings

If the Australian Government has issued a 'Do Not Travel' warning for a specific country or region, then you aren't covered while you're in that country or region. However, if your destination is unforeseeably declared a 'Do Not Travel' zone while you are on your trip, see [Your destination is declared a 'Do Not Travel' zone](#) on page 66 for details of what we cover.

What am I covered for?

Standard cover

Our standard cover means the **expense** and **benefit types** you can claim for under an event when you pay our base premium. The **expense** and/or **benefit types** that you can claim vary by plan. Our standard cover for each plan is summarised in our [Summary of cover](#) (on page 2) and detailed in [Part B. Events \(when you're covered\)](#) on page 26.

You can also purchase optional cover (listed below) for an additional premium at the time you buy your policy. (Just to be clear, our standard cover does not include the optional cover outlined below.)

+ Optional cover (Options)

In addition to the standard cover provided by the plan you select, your policy will also cover you for any options that you add at the time you buy your policy by paying the advised additional premium. For a list of options see [Summary of cover](#) on page 2. (Any options you add will be shown on your COI.)

How much am I covered for?

The **expenses and/or benefits that you can claim** for each event are detailed in each event section.

Trip limits

Each **expense** and **benefit type** has a 'trip limit'. A **trip limit** is the maximum you can claim for a particular **expense** or **benefit type** for any and all events across all claims that relate to your trip in the aggregate.

The **trip limit** for each **expense** and **benefit type** is listed in the [What you can claim](#) column for each event. For an overview of the **trip limits** that apply to each **expense** and **benefit type** for each plan, see the [Summary of cover](#) on page 2.

Further, some **expense types**, such as Standard luggage costs, also have sub-limits – or other maximum amounts like **item limits** – that apply. We may pay less than the **trip limit** depending on the amount of your claim or as a result of these sub-limits or other **item limits** that apply.

For more details on how we calculate and apply **trip limits**, see [How do trip limits work?](#) on page 74.

Excesses

If you make a claim, an **excess** may apply, which we'll deduct from the amount you claim. Your **excess** amount is shown on your COI. (For more information on how **excesses** work, see [Your policy excess](#) on page 14.)

You can also reduce your **excess** to nil on our single-trip international Basic and Comprehensive plans by taking out the [Excess Buy-out Option](#) (see page 14) – although you can't remove any **excess** that applies to a specified medical condition.

When does my cover start?

Your cover starts on the day you buy your policy – this is called the 'issue date' and is shown on your COI. You can buy single-trip policies up to 12 months before your trip departure date. Our multi-trip policy can be purchased up to 6 months prior to the 12-month policy period.

When does your trip start?

Your trip starts at the time you leave your home in Australia to commence your trip, on or after the trip departure date shown on your COI – whichever is later.

Which events am I covered for?

Up until your trip starts, you're only covered under the events listed in [You have to cancel or change your trip](#) (see pages 34 to 49 for details).

Cover under all other events begins when your trip starts.

Already travelling when you buy your policy? A waiting period applies.

If you're already travelling when you buy your policy, a 72-hour waiting period applies. This means you won't be covered under any events that occur within the first 72 hours of buying your policy.

When does my cover end?

For our single-trip plans, your cover ends on the earlier of:

- when you get back to your home in Australia; or
- midnight Australian Eastern Time (AET) on the trip return date shown on your COI.

For our multi-trip plan:

The rules regarding when cover for each trip starts and ends are slightly different for our multi-trip plan. See [Choosing the plan that's right for you](#) on page 12 for details.

What if something happens when I'm away and I can't get home? (Automatic extension)

If anything unforeseeable and outside of your control prevents you from getting home by midnight on the trip return date shown on your COI, we'll automatically extend your cover until midnight the following day (AET).

Further, if you're covered under an event that happens while you're travelling and that event prevents you from returning home from your trip before your cover ends, we'll extend your cover up to the earlier of:

- when you're reasonably able to arrange alternative transport home;
- when you – or, where relevant, your travelling companion – are medically fit to return home following illness or injury; or
- six months after the trip return date shown on your COI.

Resuming your trip after returning home early?

If you return to your home in Australia before the trip return date shown on your COI, that's when your cover ends. So if you resume travelling, you must buy a new policy.

How long can I get cover for?

You can get cover for trips up to a maximum length of 12 months for single international trips and 6 months for single domestic trips.

With our multi-trip plan, cover is for all trips you take within a 12 month period – however each trip is only covered up to a maximum length of time. You select this maximum length – either 30 or 50 days – at the time you buy your policy.

Whose time zone?

All times and dates are in Australian Eastern Time (AET) – whether in this document or displayed on your COI. Make sure you consider any time differences when taking out your policy, to make sure that you're covered until you get home – particularly if you're travelling home from the U.S.A.

How much does it cost?

We work out how much your premium will cost based on:

- the number and ages of primary travellers on your policy;
- where you're going and how long you're travelling;
- whether you're taking a winter sports holiday; and
- any other options you add to your policy (such as specified medical conditions).

Then we add any government charges, taxes and levies – like GST and Stamp Duty – to the premium.

Your duty of disclosure

Before you enter into, vary or extend an insurance contract, you have a duty of disclosure under the Insurance Contracts Act 1984. When we ask you questions that are relevant to our decision to insure you and on what terms, you must tell us anything that you know and that a reasonable person in the circumstances would include in answering the questions. When amending or extending your contract of insurance, we will ask you specific questions about any change in your circumstances. You must tell us about any change to something you have previously told us; otherwise you will be taken to have told us that there is no change. You have this duty until we agree to insure, amend or extend the contract. If you don't tell us anything you are required to tell us, we may cancel your contract or reduce the amount we'll pay you if you make a claim, or both. If your failure to tell us is fraudulent, we may refuse to pay a claim and treat the contract as if it never existed.

2. Choosing the plan that's right for you

Our single-trip plans cover you for just one trip. If you travel more than once a year – whether overseas or here in Australia – then you might want to consider our multi-trip plan, the Annual Frequent Traveller.

Our single-trip plans

Our single-trip plans cover you for one trip. The events you're covered for under each of these plans, along with the trip limits that apply, are summarised in our [Summary of cover](#) (see page 2) and detailed in [Events \(when you're covered\)](#) (see page 26). You can buy our single-trip plans up to 12 months before your trip starts.

For international trips

Comprehensive Plan

Our Comprehensive plan is designed for international trips and for cruises that go outside Australian coastal waters. It has flexible options to enable you to tailor your cover.

Basic Plan

Our Basic plan is a lower-cost plan designed for international travellers who just want the essentials such as medical and limited cover under other events. There is no standard cover for cancellation related expenses under this plan, but you can add cover with our [Extra Cancellation Cover Option](#) (see page 13).

For an overview of the key differences in the standard cover provided by the Comprehensive and Basic plans, see the [Summary of cover](#) on page 2.

Our multi-trip plan

Annual Frequent Traveller Plan (AFT)

The Annual Frequent Traveller (AFT) plan covers you for all trips you take within a 12 month period, for both domestic and international trips. You can buy an AFT policy up to 6 months before the start of your policy period.

How many trips can I take?

You can take as many trips as you like; however each trip is only covered for a maximum length. You select this maximum length – either 30 or 50 days – at the time you buy your policy (which will then be shown on your COI). If you take a trip that goes beyond the maximum length (of either 30 or 50 days), then you'll need to buy a separate single-trip policy to cover any extra days.

When am I covered?

Your cover commences on the day you buy your policy (the 'issue date' shown on your COI) for all domestic and international trips that start after the issue date shown on your COI.

Each trip you take starts at the time you leave your home in Australia to commence your trip. Up until each trip starts, you're only covered for that trip under events listed in [You have to cancel or change your trip](#) (see pages 34 to 49 for details).

For domestic trips

Domestic Plan

Our Domestic plan is designed for trips that are solely within Australia, but doesn't include travelling outside Australian coastal waters.

Taking a cruise within Australia?

While the Domestic plan will cover cruises that are solely on internal waterways such as Australian rivers, it won't cover you for travelling outside Australian coastal waters (which means cruising more than three nautical miles off the Australian coastline).

If your domestic cruise ventures outside Australian coastal waters or beyond (e.g. a cruise to Norfolk Island), you'll need to buy one of our international plans.

For an overview of the standard cover provided by our Domestic plan, see our [Summary of cover](#) on page 2.

Cover under all other events begins when your trip starts, and cover for all events related to a specific trip ends on the earlier of:

- when you get back to your home in Australia;
- midnight Australian Eastern Time (AET) on the trip return date shown on your COI; or
- midnight Australian Eastern Time (AET) on the 30th or 50th day of your trip, depending on the maximum length of trip you select at the time you buy your policy. (This will be shown on your COI.)

Which events am I covered for?

Your AFT policy covers you for all the events included in our standard cover. See our [Summary of cover](#) for a list of the events covered under your AFT policy.

How much am I covered for?

All expense and benefit types have a trip limit. This is the maximum amount you can claim for all claims (across all events) for each individual trip you take. The trip limits for each expense (or benefit) type vary by plan, and are listed in the [What you can claim](#) section for each event.

When you buy an AFT policy, all **trip limits** (except those that apply to the event **You are being sued (personal liability)**) are per **trip** rather than for the full 12 month period. So if you crash your rental vehicle when driving from Perth to Broome in January, and claim up to the full **trip limit** of \$5,000 for that **trip**, you are still covered for the full **trip limit** of \$5,000 for Rental vehicle insurance excess on your **trip** to Europe later in the year.

The exception to this is the **trip limit** for the **You are being sued (personal liability)** event. The **trip limit** for expense types under this event is ‘per policy’ rather than ‘per trip’, which means that it applies only once to all expenses claimed across all **trips** you take while covered by your AFT policy.

What about the rest of the family?

You can add another adult to your AFT policy as an additional **primary traveller** at the time you buy your policy – and even if you take **trips** without each other, you’ll still be covered.

You can also add your children (and grandchildren) on your AFT policy as **dependants** at no extra cost at the time you buy your policy. They’ll then be covered under your policy provided they:

- are under 25 at the time you buy your policy;
- don’t have a full time job;
- are shown on your **COI** as an Insured **Dependant**; and
- are travelling with a **primary traveller** at the time any event occurs.

Just to be clear, if **dependants** travel without a **primary traveller** they’re not covered under your AFT policy and will need their own policy.

Already travelling?

You can buy an AFT policy when you’re already travelling, provided that your **trip** starts and ends in Australia. But as with all our plans, there’ll be a 72-hour waiting period before cover begins under all events.

What we mean by ‘trip’

On a single-trip plan, a ‘trip’ means travel:

- over 50km from your home; which
- begins and/or ends at your home; and
- is between the departure and return dates; as shown on your **COI**.

Refer to pages 10-11 (and 12-13 for AFT plans) to understand when cover for your **trip** begins and ends.

On an AFT plan, a ‘trip’ means travel:

- up to 30 or 50 days and over 100km from your home; which
- begins and ends at your home; and
- is between the departure and return dates; as shown on your **COI**.

+ Extra Cancellation Cover Option (optional cover)

Our standard cover includes:

The standard **trip limits** for ‘cancellation related expenses’ are shown in the table below. These limits are the maximum amounts that can be claimed for everyone shown on your **COI**, for each **trip**.

How to buy extra cover:

Alternatively, you can choose a higher **trip limit** for everyone shown on your **COI** at the time you buy your policy – up to the maximum **trip limits** for extra cover shown in the table below. The higher **trip limit** you choose and the additional premium will be shown on your **COI**.

	Plan	Standard cover maximum trip limits:	Extra cover maximum trip limits:
Single-trip plans	Comprehensive	\$5,000 for each primary traveller#	+ Unlimited
	Basic	\$0 for each primary traveller#	+ Unlimited
	Domestic	\$1,000 for each primary traveller#	+ \$20,000
Multi-trip plan	Annual Frequent Traveller	\$5,000 for each primary traveller#	+ \$20,000

#The trip limit for this expense is based on the number of primary travellers on the policy (and shown on your **COI**). All travellers, including dependants, are covered under this trip limit. See [How do trip limits work?](#) on page 74 for details.

What we mean by ‘cancellation related expenses’

Cancellation related expenses include only:

- Cancellation costs relating to events that occur before your **trip** starts and on your **trip**;
- Rearrangement costs relating only to events that occur before your **trip** starts; and
- Unused tourist visa costs relating only to events that occur before your **trip** starts.

3. Your policy excess

Our standard cover includes an excess, which is your contribution towards your out-of-pocket expenses when you make a claim, and it's shown on your COI. If you claim under an event where an excess applies, we deduct the excess amount from what we pay.

You pay one excess for each separate incident, even if you can claim for more than one event. So if you smash into a tree skiing and break a leg as well as both your skis, only one excess is applicable because this is one incident. But if you go to the doctor for gastro and then later your wallet gets stolen, these are two separate incidents – so you must pay an excess for each incident.

When you buy your policy, you can choose to pay an additional premium to reduce the standard excess to nil on the Comprehensive and Basic plans. See [Excess Buy-out Option](#) below for more information.

Specified medical conditions – additional excess

If you add a specified medical condition to your policy, we may also add an additional excess to the standard excess on claims you make related to that specified medical condition. The amount of any additional excess will be shown on your COI (and/or in any related documents about your specified medical conditions). You can't remove this excess if you add the Excess Buy-out Option detailed below.

+ Excess Buy-out Option (optional cover)

If you prefer not to pay an excess for claims made under our single trip international Comprehensive and Basic plans, you can choose to reduce your excess to nil by selecting this option at the time you buy your policy. We'll let you know what the additional premium is when you do this.

Remember – you can't buy out any additional excess that applies if you add a specified medical condition (see above). Any excess payable by you will be shown on your COI.

When don't you need to pay an excess?

Most of the claims you make will relate to unexpected expenses you incur when something goes wrong – like Overseas medical expenses or Cancellation costs. But in some cases, we may pay you a benefit – a cash payment that's not directly related to any particular expense you incur (for example, an In-hospital allowance or Accidental death benefit).

If you only make a claim for a benefit (rather than an expense), then there's no excess for that claim. If you make a claim for both an expense and a benefit related to a specific event, then you must pay any relevant excess.

There are also certain events to which an excess won't apply – like when [Your luggage is delayed](#) or [Your rental vehicle is in an accident, damaged or stolen](#). Whether or not an excess applies to an event is noted at the end of the [What you can claim](#) column within each specific event.

Further, if your combined expenses for any one incident are less than any excess that applies to your claim, we won't reimburse you for those expenses.

? Cancelling your policy?

Cancelling within the cooling-off period

You have 14 days from the day you buy your policy to decide if the cover is right for you. If it's not, you can cancel your policy within this 'cooling-off period' – and we'll give you a full refund of your premium provided that you haven't started your trip, haven't made a claim and don't intend to make a claim or exercise any other right under your policy.

Cancelling outside the cooling-off period

If you request to cancel your policy outside the cooling-off period, we may, at our discretion, refund that part of your premium paid for the unused period of insurance; we may charge an administration fee to do so. Also, you cannot have started your trip, made a claim and/or intend to make a claim or exercise any other right under your policy.

4. Travelling with an existing medical condition

What's an existing medical condition?

An **existing medical condition** is one for which, in the three years prior to policy purchase, you have:

- had symptoms or been diagnosed;
- been prescribed medication;
- received (or are waiting for) medical treatment;
- received (or are waiting for) tests, investigations or specialist consultation;
- received or been advised to attend a follow-up consultation; and/or
- had surgery or attended a hospital or clinic (as an outpatient or inpatient).

It also includes any **chronic** or ongoing **medical condition** or terminal illness.

This definition applies to **you**, **your travelling companion**, a **close relative**, **someone at home** and any other person.

! Missed your check-up?

If **you** received medical advice within the last three years that **you** should have had a review, follow-up consultation or treatment for a **medical condition** – and if **you** didn't get the review, consultation or treatment – we'll classify it as an **existing medical condition**.

Getting cover for existing medical conditions

The good news is that a number of the most common **medical conditions** are **automatically covered** by your policy as part of our **standard cover**. And even if your **existing medical condition** isn't **automatically covered**, in many cases you'll still be able to get cover. Here's what you need to do:

1. **Check if your condition is an 'Automatically accepted condition'**
We'll automatically cover you for over 40 **medical conditions**. If your **existing medical condition** is on the list of **Automatically accepted conditions** (see page 16), and you satisfy all the criteria related to that condition, we classify it as an '**automatically accepted condition**', and you're covered under **events** that arise from that condition as part of our **standard cover**.
2. **Apply to add any conditions that aren't automatically covered as 'Specified medical conditions'**

If you have one or more **existing medical conditions** (that aren't **automatically covered**) that you want cover for, you can apply to add them as a **specified medical condition** at the time you buy your policy. See [Adding a specified medical condition](#) on page 16 for more information.

Medical conditions that must always be screened

If you have ever had any of the following **medical conditions**, you must have a medical screening before or at the time you buy your policy. We will then determine if the condition can be added to your policy and covered as a **specified medical condition**.

- heart conditions – cardiovascular/coronary heart disease;
- respiratory conditions (except asthma and/or sleep apnoea providing they are **automatically covered**);
- chronic kidney disease;
- conditions involving the neck or back;
- cancer which has metastasised (the process by which cancer spreads from the place at which it first arose as a primary tumour to distant locations in the body);
- immune system deficiencies/reduced immunity; or
- any terminal illness.

? What about a cold or food poisoning?

If you've been diagnosed by a doctor with a simple cold or a 24-hour gastric bug within the past three years, we don't need to know about it, provided that you're fully healed at the time you buy your policy.

But if you haven't been to the doctor to check out your symptoms, or if you've been diagnosed by a doctor with a cold or food poisoning that hasn't cleared up, you may not be covered if your **medical condition** leads to a claim.

What happens if you choose not to get cover for your existing medical condition?

If you have an existing medical condition that's not automatically covered under your policy and you don't tell us about it, or if you do tell us about it and then you choose not to add it to your policy as a specified medical condition, then you won't be covered for any claim that arises in relation to it.

For example, if you had an operation six years ago to have your thyroid removed due to a tumour and you currently take medication to control your hormone level, we consider it to be an existing medical condition – even if it feels like it's under control.

If you don't tell us about this condition, or you do tell us and then don't pay a premium to add it as a specified medical condition, you won't be covered under any events that arise from that existing medical condition

What if I develop a medical condition after buying my policy but before I travel?

If you develop a new medical condition (or the symptoms of one) after you buy your policy but before you depart on your trip, you must check with your medical practitioner for written confirmation that you're fit to travel. If you don't get your medical practitioner's written confirmation before you travel, and/or are unfit to travel due to your medical condition, you won't be covered for any claim that arises either directly or indirectly from that condition if you still travel.

Don't forget, if you had symptoms of a condition or were undergoing investigations for it at the time you bought your policy, we consider that to be an existing medical condition. If you forgot to tell us about this when you bought your policy, contact us as soon as possible.

⊕ Adding a specified medical condition (optional cover)

To add a specified medical condition, you must let us know about your existing medical conditions at the time you buy your policy and complete a medical screening. We'll ask you some questions about your health and then determine whether we can offer you cover and if so, on what terms.

In many cases, we expect that we'll be able to offer you cover for your existing medical condition for an additional premium. If you choose to pay the additional premium, the condition becomes a specified medical condition covered under your policy, and the premium and any additional excess will be shown on your COI. You'll then be covered under events that arise from that specified medical condition.

5. Travelling while pregnant

When are you covered?

If you're pregnant at the time you buy your policy, or fall pregnant afterwards, you'll have standard cover under any event that arises from your pregnancy, provided that the incident that causes your claim:

- is sudden, unforeseen and outside of your control; and
- occurs up to the end of the 26th week of a single pregnancy (or the 19th week of a multiple pregnancy).

Further, if your claim arises as a result of pregnancy complications such as hyperemesis (severe morning sickness), miscarriage and gestational diabetes, then to be covered under any event, those (or any other) pregnancy complications must either have:

- first developed unexpectedly after you bought your policy and not be related to any previous pregnancy complication you'd had prior to buying your policy; or
- been added to your policy as a 'specified medical condition'. (See [Adding cover if you've had pregnancy complications](#) on the right.)

These conditions apply whether you fall pregnant naturally or with medical assistance (for example, through IVF).

+ Adding cover if you've had pregnancy complications (optional cover)

If you have a history of pregnancy complications, either with a current or past pregnancy, and would like cover for them, you must tell us about these complications before or at the time you buy your policy and complete a medical screening. We'll ask you some questions about your health and then decide whether we can cover you for your pregnancy complications – and if so, on what terms.

If we agree to give you cover, and you choose to pay the additional premium, your approved pregnancy complications become specified medical conditions under your policy. The premium you have paid as well as any additional excess will be shown on your COI.

For more information on how to add pregnancy complications as a specified medical condition, see [Adding a specified medical condition](#) on page 16.

Continued over page.

When aren't you covered?

You won't be covered under any events that arise from any past or current **pregnancy complications** if those **medical conditions** aren't added to **your** policy as **specified medical conditions** at the time **you** buy **your** policy.

This means that if **you** don't tell **us** about current or past **pregnancy complications** at the time **you** buy **your** policy – or if **you** do tell **us** about them and choose not to pay the additional premium to add them as **specified medical conditions** – **you** won't be covered under any **events** that arise as a result of those complications.

Also, **you** should plan **your** **trip** so **you're** home by the end of the 26th week for single pregnancies (or the 19th week for multiple pregnancies). If **you** don't, and something happens, **you** won't be covered.

6. Cover for your luggage and personal items

What are luggage and personal items ('luggage')?

We use the term 'luggage' to refer to the **luggage and personal items** owned by **you** – including those **you** buy on **your** **trip** – which are designed to be either worn or carried about with **you**. Here are some examples:

Examples of items that we consider to be luggage:

- ✓ Clothing, coats and shoes
- ✓ Personal electronics such as mobile phones, iPads, notebooks, cameras, video equipment
- ✓ Toiletries and cosmetics
- ✓ Sunglasses, prescription glasses
- ✓ **Your** suitcase and carry-on **luggage**

Examples of items that we do NOT consider to be luggage:

- ✗ Precious stones, bullion, metals and minerals
- ✗ Gift cards, gift vouchers, other financial instruments (such as bonds),
- ✗ Lottery tickets, poker tokens/chips or other **items** used in gambling;
- ✗ Furniture such as artwork, floor rugs and ceramics
- ✗ Business equipment and materials, stock, samples, tools and **items** of trade
- ✗ Weapons, firearms, knives
- ✗ Collectibles (e.g. stamps)
- ✗ Drones
- ✗ Watercraft (other than surfboards, windsurfers or kite surfing boards added under the New for Old Luggage Option as specified **items**)

Looking to fall pregnant?

You don't need to currently be pregnant to apply for cover in relation to any **pregnancy complications** you've had in the past. If you're thinking about having a baby and you have a history of **pregnancy complications**, follow the instructions in this section to apply for cover. If you don't tell us about prior **pregnancy complications** and you then fall pregnant, there's no cover under **your** policy for anything that happens as a result of those complications.

Your passport, travel documents, cash and credit cards

We don't consider **your** passport, travel documents, cash or credit cards to be **luggage**. However, we do provide cover for them under our Comprehensive, Basic and AFT plans (but not our Domestic plan). See:

- **Your passport or travel documents** are lost, damaged or stolen (see page 61); and
- **Your credit cards** are lost or stolen, or your cash is stolen (see page 63).

Valuables

When we use the term 'valuables', we mean **your** mobile phone, smart phone, phablet, laptop, notebook, tablet (such as an iPad), camera, video equipment and any other handheld computer, and jewellery.

We only cover the things you own

We only cover **luggage** which belongs to **you**. That's why we'll ask **you** to provide proof of ownership when **you** claim. In some cases, we may also pay a claim for **luggage items** that were in **your** care and **you** brought with **you** on **your** **trip**. For example, if **you** borrowed Mum's camera to take with **you** on the **trip**, it's covered; but if **you** borrow someone's camera for the day while **you're** away, it's not.

Our standard cover for your luggage

Our standard cover provides you with cover for the ‘depreciated value’ of individual items of luggage up to the item limits shown below. There are also **trip limits** which apply to the total amount you can claim for your luggage for the whole trip – see [Your luggage is lost, stolen, damaged or delayed](#) on page 55 for details on covered events and trip limits.

Individual item limits (standard cover)

Electronics \$4,000
(per item)

Laptops, notebooks, tablets, iPads, cameras, video cameras and other personal hand-held computers

Mobile phones \$1,000
(per item)

Mobile phones, smart phones, phablets

Medical aids \$1,000
(per item)

More info on what we mean by ‘medical aids’ see [Definitions](#) on page 81.

Everything else \$700
(per item)†

All other items (see [†Restrictions on cover for specific types of luggage](#) below for other important conditions)

i What we mean by ‘item’

An **item** is a single article or unit, like a shirt, a dress or a belt. Some **items** go together, like two earrings, a pair of socks, skis and bindings, or a camera and a lens. So if you make a claim for **items** like these, we’ll consider them a single **item** – you can’t claim separately for each. But if you also lose the matching bracelet, your poles or an extra camera lens – we’ll happily consider those to be separate **items**.

†Restrictions on cover for specific types of luggage

a) Getting cover for sports and leisure equipment (including musical instruments)

There’s no standard cover for any sports and leisure equipment (including musical instruments, surfboards and bicycles). To cover your sports and leisure equipment, you need to purchase the [New for Old Luggage Option](#) (see details on page 21) and pay an additional premium at the time you buy your policy.

Winter sports equipment

We treat winter sports equipment a little differently, however. Your winter sports equipment is covered up to its depreciated value when you purchase the Winter Sports Option (including when it’s damaged while in use, as long as the equipment is less than three years old).

The ‘in use’ rule:

There is no cover for accidental damage to your sports and leisure equipment while it’s in use. The only exception to this is winter sports equipment, which is covered for accidental damage when it’s in use – but only when you have purchased the Winter Sports Option and the equipment is less than three years old.

+ Adding New for Old Luggage cover for your sports and leisure equipment (optional cover)

You can add New for Old Luggage cover for your sports and leisure equipment (including musical instruments) by adding them as specified items and paying an additional premium at the time you buy your policy. Your sports and leisure equipment will then be covered for its replacement value – up to the amount you specify – except for when it’s in use (see “The ‘in use’ rule” to the left).

You may also wish to add New for Old Luggage cover for your winter sports equipment even if you’re purchasing the Winter Sports Option, so that it’s covered for its full cost rather than its depreciated value.

Note: You can’t take out New for Old Luggage cover for watercraft (other than surfboards, windsurfers or kite surfing boards).

b) Cover for your jewellery

The maximum amount we’ll cover for an individual item of jewellery is \$700 – up to a trip limit of \$2,100 for all claims you make under your policy for jewellery. You can’t add extra cover for your jewellery under the New for Old Luggage Option. So if you’re planning on taking expensive jewellery on your trip, you may be able to get separate insurance from a specialist jewellery insurer.

⊕ New for Old Luggage Option (optional cover)

If you want to take out extra cover for individual luggage items or get cover for sports and leisure equipment, you need to add each individual item as a 'specified item' at the time you buy your policy, and pay the additional premium for them. Any specified items you add at the time you buy your policy will be listed on your COI under the 'New for Old Luggage Option'.

All specified items receive New for Old Luggage cover if they are stolen, accidentally lost or accidentally damaged – except sports and leisure equipment in use (see The 'in use' rule on page 20).

How much extra cover can I add?

You can add up to \$10,000 worth of specified items – with a maximum amount of \$4,000 for each individual item.

i The difference between 'New for Old' cover and 'Depreciated value'

Our standard cover will cover your luggage items for their 'depreciated value'. We calculate the depreciated value for each item by deducting an amount for the impact of age and wear and tear from the item's original purchase price. So, if your three year old mobile phone is stolen, we'll pay you an amount that we determine reflects its current value – the 'depreciated value' – rather than the cost of a new one. However, if you would like to insure some of your items – such as your mobile phone, camera or iPad – for their full cost, you can choose to add extra cover for them with our New for Old Luggage Option.

Taking care of your luggage while travelling

When you're travelling, your luggage is at a greater risk of theft, loss or damage than at home. So you need to be extra vigilant and take all reasonable precautions to make sure it gets home in one piece. If you don't satisfy or comply with each of the conditions below, we may either not pay your claim or reduce how much we pay.

Reasonable precautions

Generally, taking reasonable precautions with your luggage means being more cautious than you normally would at home. Here are some do's and don'ts for taking care of your luggage and valuables:

Do's

- ✓ **Lock your valuables up** in a locker, locked room or safe that only you or your travelling party and authorised representatives from your accommodation have access to. For larger valuables, leave them in your locked private room or locker.
- ✓ **Keep valuables on your person** when moving about. If you have to take your valuables with you while you're walking about or travelling to and from different locations, keep them on your person at all times or leave them with a family member or a member of your travelling party.
- ✓ **Keep your bags within arm's reach** when carrying around your suitcase (or other similar bag), sports and leisure equipment and musical instruments. If you walk far enough away from them that you can't stop them from being taken, you won't be covered.
- ✓ **Double-check that you have all your luggage** (including your valuables) as you move from place to place – particularly when you are getting out of an aircraft, bus, train, ship, ferry or a taxi.
- ✓ **Secure your bags in a locked boot or compartment when left in the car during the day**, where they're out of sight from anyone looking into your vehicle. (Leaving them under a rug on the back seat doesn't count.) Remember to keep your valuables with you.

Don'ts

- ✗ **Leave any of your luggage with someone you didn't know** prior to commencing your trip, or in their room.
- ✗ **Leave your luggage in shared accommodation** where others have access to your room. If you need to leave your luggage behind in shared accommodation, make sure it's locked securely in a cabinet or a locker.
- ✗ **Leave your luggage unattended or unsupervised** in a public place where it can be taken without your knowledge (for example, by the hotel pool or outside the restaurant while you eat).
- ✗ **Be so far from your luggage that you can't stop it from being taken.** Remember – thieves are fast!
- ✗ **Pack your valuables in your checked-in luggage.** Keep valuable items such as your jewellery and laptop with you in your handbag, shoulder bag or carry-on luggage.
- ✗ **Forget your stuff or leave it behind.** Remember the rule about double-checking you have all your stuff when you leave, particularly when checking out of your accommodation or leaving a plane, bus, train, ship, ferry or taxi.
- ✗ **Leave your valuables in a motor vehicle** at any time – such as your camera, phone or laptop. Always keep them with you.
- ✗ **Leave any luggage in a motor vehicle at night** (between sunset and sunrise), even if it's locked or in the boot.

7. Working and volunteering on your trip

If you're on an overseas business trip, planning to get a short-term holiday job or volunteering on your holiday, here's what you need to know.

When are you covered?

If you work (or volunteer) when you're on your trip, you'll have **standard cover** under all events in **Events (when you're covered)** – except for under **You are being sued** (see page 67 for details) – provided that:

- **you're in a temporary, casual or fixed term contract role;**
- **you have the appropriate qualifications, licences, skills and experience** to fulfil the role;
- **you take reasonable care of yourself** and don't put yourself in a situation where a reasonable person could foresee that an **accident, injury** or illness might happen; and
- **the work you're doing doesn't put you in any of the following situations:**
 - a) at heights of over 5m above floor/ground level;
 - b) on offshore rigs;
 - c) underground;
 - d) in mines or caves;
 - e) operating machinery or heavy equipment (except small hand tools);
 - f) direct handling of or being in enclosures with non-domestic animals; or
 - g) scientific expeditions or research in remote areas including within the Arctic Circle, the Antarctic and Greenland.

For example: If you're working or volunteering in hospitality, tourism, retail, teaching, childcare or as a gym instructor, provided that you satisfy the above

requirements, **we've got you covered**. But if you're planning to take a job or do some voluntary work like cleaning windows on skyscrapers or spelunking, you won't be covered under your policy if something happens while you're on the job.

When aren't you covered?

We won't cover you if your work (or volunteer activity) causes you to make a claim under the event **You are being sued** (see page 67 for more details).

Also, if your employer (or volunteer organisation) has any insurance or other cover available to you – such as workers' compensation, any government schemes or other insurance – you should first make a claim with them for any event that occurs when you are working on your trip. If there is a difference between what they pay you and the amount we work out that you're entitled to receive under your policy, we'll pay the difference, provided your claim is approved by us.

And remember, there's no cover under your policy for any business equipment and materials, stock, samples, tools and items of trade you have with you. (See **Cover for your luggage and personal items** on page 19 for more information on what we do and don't cover as 'luggage'.)

? Working overseas for an extended period?

Travel insurance is general insurance cover designed for travellers. It isn't a replacement for private health cover when you're living overseas.

8. Cover for sports and other activities

Which sports and other activities are covered?

Your policy includes **standard cover** for events which arise from participation in a wide range of sports and activities provided that you, your travelling companion, a close relative or someone at home comply with the conditions outlined below when doing so.

A. Rules that apply to ALL sports and other activities:

No matter what the sport or activity – even if it's playing tennis or taking a stroll by the lake – there are some conditions that must be complied with for you to be covered.

For you to be covered...

You, your travelling companion, a close relative or someone at home – when taking part in any sport or other activity – must:

1. **Not participate in a sport or activity we don't cover**
See our **Sports and other activities we don't cover** section on page 24 for a list of sports and other activities we don't cover.
2. **Follow these rules when taking part in any sport or activity:**
 - a) **Don't race** – except on foot for a distance of less than 50kms. So participating in the New York

Marathon would be covered but the Kona Ironman Triathlon would not.

- b) **Don't take part as a professional** – where 'professional' means an appearance fee, wage or salary is received from training or participating in that sport or activity (whether in a competition or not).
 - c) **Be below 6,000 metres in altitude** – there's no cover for any land sport or activity – such as hiking, cycling, camping – when it takes place above 6,000 metres in altitude.
 - d) **Don't participate in an experimental sport or activity** – this includes new versions of current sports and activities.
3. **Act responsibly when taking part in any sport or activity.** This means:
- a) **Follow any rules and guidelines for the sport or activity** – comply with any laws, rules, guidelines

or other instructions for the sport or activity undertaken. This applies to rules given by the local authorities (government or private) and by any professional guides or instructors present. For example, if you swim outside the flags or ignore instructions from your diving instructor – if these rules aren't followed, there's no cover.

- b) **Use all equipment or machinery properly** – follow the rules, guidelines and other operating instructions for using equipment or machinery as outlined by the equipment's manufacturer, driver or operator, owner and any other appropriate authority.
- c) **Have the appropriate licence or qualification** – have the appropriate licence or other qualification when taking part in a sport or activity that requires one – either in Australia or the destination country – such as scuba diving.

B. Extra rules that apply when riding motorcycles, scooters, mopeds and other motorised bikes:

In addition to the conditions listed above that apply to all sports and other activities, there are some extra conditions that must be complied with for you to be covered when travelling on a motorised bike.

For you to be covered...

You, your travelling companion, a close relative or someone at home – when travelling on a motorised bike – must:

1. **Hold the appropriate class of licence in Australia** for the motorised bike being driven. In addition, if an Australian license isn't valid in the destination country, the appropriate license for that country will also be required.
2. **Wear a helmet, whether as a driver or a passenger**, even if it isn't required in the destination country. (We recommend taking a helmet with you if they're not readily available in the destination country.)
3. **Comply with all road rules and other relevant local laws.**

! Important note:

While we cover you travelling on a motorised bike, we don't cover the motorised bike itself (including any excess you may have to pay if you rent one).

C. Extra rules that apply when participating in winter sports:

In addition to the conditions listed above that apply to all sports and other activities, there are some extra conditions that must be complied with for you to be covered when participating in winter sports.

For you to be covered...

1. **When you participate in a winter sport, you must buy our Winter Sports Option** (see below).
2. **You must satisfy or comply with any relevant conditions outlined in Your winter sports holiday doesn't go to plan** on pages 69 to 70.
3. **You, your travelling companion, a close relative or someone at home must follow the Alpine Responsibility Code** when taking part in a winter sport – both in Australia and overseas. See snowsafe.org.au/alpine-responsibility-code for more details.

+ Winter Sports Option (optional cover)

If you plan on taking part in a winter sport on your trip, and you want to be covered, you must add the Winter Sports Option when you buy your policy. This option can be added to the Comprehensive, Domestic and AFT plans (but not our Basic plan).

What does the Winter Sports Option cover?

When you add the Winter Sports Option, it will be shown on your COI. You'll then be covered for:

- **Certain events that would otherwise exclude winter sports** (under standard cover). This includes all medical events in the [You need medical help](#) section (see page 27) plus other events listed in [Your winter sports holiday doesn't go to plan](#) event (see page 69).
- **Snow holiday specific incidents:** for example, if your skis are delayed, lost or stolen; your hired ski equipment is lost, stolen or damaged; or the piste is closed.

- **Cover for winter sports pre-paid costs** – such as ski equipment hire, lift passes and ski school costs – if you're injured in an accident or suddenly fall ill and can't ski for more than 24 hours. (See page 69 for details.)
- **Your winter sports equipment** is covered as 'luggage', which means that it is covered for its **depreciated value** up to \$700 per item for all events in the **Your luggage and personal items are lost, stolen, damaged or delayed**

section, even when it's in use. The only exception to this is where your winter sports equipment is **accidentally** damaged. In this instance, it is only covered when it's less than three years old. (See page 55 for more information.)

For more information on this option and the conditions that apply, see **Your winter sports holiday doesn't go to plan (optional cover)** on page 69.

i What we mean by 'winter sports':

- **Snow skiing and snowboarding** (on piste and off-piste) within the resort and terrain park boundaries on groomed and ungroomed runs and marked trails which are patrolled or monitored by resort authorities;
- **Back country skiing and snowboarding** including heli-skiing and cat skiing; only when on a guided tour with a licensed tour operator;
- **Snowmobiling** when provided by the recognised piste authority for transport to and from areas designed for recreational skiing within resort boundaries, or when on a guided tour with a licensed tour operator;
- **Tobogganing** on marked trails, on-piste only;
- **Cross-country skiing** on groomed and ungroomed runs and marked trails which are patrolled or monitored by resort authorities; and
- **Telemark skiing** within the resort and terrain park boundaries on groomed and ungroomed runs and marked trails which are patrolled or monitored by resort authorities.

You will only be covered for the **winter sports** listed above if you have bought the Winter Sports Option (and it is shown on your COI). **To be covered** when participating in any of these sports, you must stay in areas that a resort, tour operator or relevant local authority has designated as safe.

Sports and other activities we don't cover:

There are some sports and activities we consider too risky to cover. If your claim arises as a result of you, your travelling companion, a close relative or someone at home taking part in any of these activities, then there's no cover under your policy.

9. Renting a vehicle

Our standard cover

When you rent a vehicle on your trip, the insurance excess on that vehicle is often thousands of dollars. But with National Seniors (for all but our Basic plan), our standard cover includes a trip limit of \$5,000 to cover any rental vehicle insurance excess you have to pay (plus any related rental company administration charges).

If you plan on renting a vehicle, you should check out how much insurance excess you'd have to pay if the rental vehicle is in an accident, damaged or stolen. If the insurance excess is more than \$5,000, you can choose to increase your cover under this policy for an additional premium.

See [Your rental vehicle is in an accident, damaged or stolen](#) on page 65 for more information about when you're covered and what expense types are covered.

What we mean by 'rental vehicle'

We consider a rental vehicle to be one that is:

- rented by you;
- from a licensed motor vehicle rental company (that provides you with a written rental agreement);
- insured (see on the right);
- driven by you or in your care (e.g. if it was parked); and
- one of the following types of vehicles:

 Sedan	 Campervan	 Four wheel drive	 Mini bus
 Hatchback	 Station wagon	 People mover	 Motorhome up to 4.5 tonnes

Renting a motorbike or a sports car?

Just so we're clear, we don't cover any rental vehicles not listed in the table above. For example, if you're thinking of renting a motorbike or a sports car, the excess on any insurance you have on these vehicles isn't covered.

! Make sure your rental vehicle is insured!

Your policy (for the Comprehensive, Basic and AFT plans) only covers you for any rental vehicle insurance excess you have to pay to the rental vehicle company or an insurer following theft or damage to the vehicle. It isn't a substitute for insurance on the rental vehicle. In some countries – like Australia – insurance is normally included in the rental price of the vehicle, although there's often a large excess. But elsewhere – like the United States – you'll often need to 'opt-in' and pay extra for insurance (which may be offered as a Loss Damage Waiver, Collision Damage Waiver or other similar term). If you don't have separate insurance on your rental vehicle, there's no cover under your policy for anything that happens to your rental vehicle.

+ Extra Rental Vehicle Insurance Excess Option (optional cover)

If you need more than \$5,000 cover for your rental vehicle insurance excess, for an additional premium you can increase your cover in increments of \$500 at the time you buy your policy up to a total of \$8,000 (for all but our Basic plan).

The amount of any extra cover you choose will be shown on your COI.

Part B: Events (when you're covered)

Whether you have to cancel or rearrange your trip before you leave, need medical help on your trip, or have trouble getting from A to B – in this part of the PDS, we list the events you're covered for under your policy.

About events...

We cover you for certain circumstances that happen before you travel and while you're on your trip. These are known as events. In this part of the PDS we list the events that are covered by your policy in the sections below.

Each event details the expense and any benefit types you can claim for under that event:

- 'Expense types' cover out-of-pocket costs (such as doctors' bills); and
- 'Benefit types' are cash amounts paid to you when you meet certain criteria (such as having been in hospital for more than 48 hours).

See [Expenses and benefits explained](#) on page 75 for more information. We also explain any special conditions or exclusions which apply to your cover, and what you'll need to do if an event happens.

The maximum amount that you can claim per trip – or trip limit – for each expense or benefit type for any and all events (in total) varies for different plans and is shown in the [What you can claim](#) section in each event. The plan you choose at the time you buy your policy is shown on your Certificate of Insurance (COI). See [Choosing the plan that's right for you](#) on page 12 for more information.

You're covered when:

The following sections contain the events covered by your policy. For details of exactly when you're covered and what we'll pay, see the individual events within each section.

Contact us if you need medical help on your trip

Our Australian based team of medical professionals is available 24/7 on **+61 2 9234 3170** or **+61 2 8256 1570** to help you find the assistance you need.

If your **medical condition** is something simple – like a cold or a 24 hour gastro bug – and your **expenses** aren't going to be large, then you don't need to call us unless you want help finding a local **medical practitioner**. But here are a couple of rules you must follow:

- **If you're admitted to hospital, or if your overseas medical expenses are going to be more than \$2,000** then you must call our 24/7 Emergency Assistance team on **+61 2 9234 3170** or **+61 2 8256 1570** as soon as you reasonably can.
- **If you're in a country that has a Reciprocal Health Care Agreement with Australia (e.g. New Zealand)** then you must use the publicly funded health system for medical or dental care (where possible).
- **If you need to be medically repatriated (come home early)**
In cases where we agree that it is **medically necessary** for you to return home early from your trip, we'll pay your medical repatriation costs provided that:
 - **You get approval from us before you arrange to come home** – even when your doctor says it's necessary;
 - **If you choose not to be medically repatriated to Australia for medical treatment** after we determine that you should be, based on the advice of a **medical practitioner** appointed by us – then we may limit the total amount we'll pay to an amount we determine we would have paid if you had followed our recommendation. You'll then be responsible for any further **expenses** that arise from that **injury** or illness. Further, you won't be eligible to receive any further **benefits** related to that **injury** or illness.

If you're at all unsure as to what to do, you should contact us – our Australian team of medical professionals is here 24 hours a day, 7 days a week.

Importantly: If you don't follow the rules above, and we determine that your **expenses** would have been less if you had, then we may either not pay your claim or reduce how much we pay.

i What we mean by 'medically necessary'

When we use the term '**medically necessary**' to qualify which **expense types** we will pay for – we mean that your treating doctor (or other qualified **medical practitioner**) must have certified in writing that the **expense** is necessary for the diagnosis, care or treatment of your **medical condition**. Further we, or a **medical practitioner** appointed by us, must agree with your treating doctor. So, if you break your leg and your doctor certifies that you're to be confined to your hotel room – provided we agree – you can claim the cost of having to cancel any prepaid tours, and the extra **expense** of ordering meals from the room service menu. But if you just need stitches for your leg, and your doctor says it's OK to keep walking on it, then we won't cover the cost of cancelled tours or room service since you can still get out and about – even if you find it uncomfortable to do so.

1.1 You get medical help on your trip when you are injured in an accident or suddenly fall ill

1. You're covered when

You are on your trip when you:

are injured in an accident, OR

suddenly fall ill due to a medical condition

To be covered:

- a) **You must get medical help** from a qualified medical practitioner as soon as possible while you are on your trip; and
- b) **The injury or illness must have first developed** after you bought your policy. If the injury or illness is an existing medical condition, or arises from one, we may either not pay your claim or reduce how much we pay, unless it is either:
 - **An automatically accepted condition**- we automatically cover you for over 40 existing medical conditions. See [Automatically accepted conditions](#) on page 16; or
 - **A specified medical condition**- This is an existing medical condition that we've agreed to cover in writing and for which you've paid an additional premium. See [Specified medical conditions](#) on page 16.

For more information about existing medical conditions, see [Travelling with an existing medical condition](#) on page 15.

2. What you can claim

If we agree you're covered under this event, you can claim for the following expense and benefit types up to your plan's trip limits shown below (your plan is shown on your COI):

<p>Overseas medical costs</p> <p>We'll reimburse you for any medical expenses that arise from the treatment of your medical condition by a legally qualified medical practitioner or paramedic while you are overseas for up to 12 months after you were injured or you first suddenly fell ill on your trip. <p>Companion costs</p> <p>If we determine that it's medically necessary for you to have someone by your bedside in hospital to help with your day-to-day activities while you're still overseas, or to help you with your return trip to your home in Australia, we'll pay the reasonable extra costs for their transport, accommodation and meals, including any additional tourist visa costs.</p>	Unlimited	Unlimited	(combined limit with Medical repatriation costs and Extra trip costs on the next page)

? What to do when this happens...

	Comprehensive & AFT Plans	Basic Plan	Domestic Plan
<p>Medical repatriation costs</p> <p>We'll pay any extra costs (over and above what you paid or would have paid) to return you to your home in Australia, provided that we determine that it is medically necessary to do so, including where you need a medical escort home. <p>Return of rental vehicle costs</p> <p>We'll pay the cost of returning your rental vehicle to the nearest depot when your treating doctor confirms in writing that you're medically unfit to do it yourself.</p>	\$500	×	\$500
<p>+ Winter sports prepaid costs (Winter Sports Option only)</p> <p>We'll pay up to \$1,000 per person for non-recoverable, pre-booked charges for ski-equipment hire, lift passes and ski school costs if it is medically necessary for you to stay off the slopes for more than 24 hours, provided that you added the Winter Sports Option at the time you bought your policy (and it is shown on your COI).</p>	\$1,000 for each primary traveller#	×	\$1,000 for each primary traveller#

We work out the trip limit for this particular expense (or benefit) based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit – except for the trip limits for the Accidental death and Loss of income benefit types, which only cover primary travellers. See [How do trip limits work?](#) on page 74 for details.

#Subject to the Existing Medical Conditions Claim Cap (below), we work out the trip limit for this particular expense based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See [How do trip limits work?](#) on page 74 for details.

†Existing Medical Conditions Claim Cap

To be covered under this event, the medical condition that resulted in your claim must have first arisen after you bought your policy, except where the affected person is a close relative.

If your claim does arise from a close relative's existing medical condition, there is limited cover when, at the time you bought your policy, it was medically unforeseeable that hospitalisation, death or incapacitation would arise from that existing medical condition before you returned from your trip. To be covered, your close relative's medical practitioner must confirm this in writing. In this instance, the total amount you can claim (the combined trip limit) across all expense types reduces to \$2,000 per for each primary traveller#. This is referred to in this policy as the 'Existing Medical Conditions Claim Cap'.

#We work out the value of the Existing Medical Conditions Claim Cap based on the number of primary travellers on the policy (and shown on your COI). As with all trip limits, all travellers (including dependants) are covered under the Cap.

Other important things you need to know:

- **Trip limits:** A trip limit is the maximum amount that can be claimed per trip (in aggregate across all events) for each expense or benefit type. See [How do trip limits work?](#) on page 74 for details.
- **Excess:** An excess is deducted from any claim paid under this event. See [Your policy excess](#) on page 14.
- **More information:** See [Expenses and benefits explained](#) on page 75 for other rules that apply.

3. We don't cover you when:

- ✘ **You should have known there could be a problem**
We won't cover you if you buy your policy, or make travel arrangements, after a reasonable person in your situation would have known that their travel plans could be affected by the incident that led to your claim.
- ✘ **The claim relates to the pregnancy of your travelling companion** when they are more than 26 weeks pregnant for single pregnancies (or 19 weeks for multiple pregnancies).
- ✘ **The medical condition isn't one we cover**
See [Things we'll never cover](#) on page 71.
- ✘ **They weren't taking reasonable care of themselves**
If your travelling companion, close relative or someone at home wasn't taking reasonable care of themselves, or put themselves in a situation where a reasonable person should have known that an injury or illness was likely to happen, we won't cover you.
- ✘ **Your travelling companion, close relative or someone at home was taking part in a sport or activity** and didn't satisfy or comply with our conditions
See [Cover for sports and other activities](#) on page 22.
- ✘ **Your claim arises from an act or threat of terrorism**

Always read the entire PDS in order to fully understand the conditions and exclusions that apply. In particular, see [Things we'll never cover](#) on page 71 and [Making a claim](#) on page 73.

3. You have trouble getting from A to B

Events – you’re covered when:

3.1

You miss your flight, other scheduled transport or tour (and it’s really not your fault)

Page 51

3.2

Your flight, other scheduled transport or tour is delayed and IT’S NOT the operator’s fault

Page 52

3.3

Your flight, other scheduled transport or tour is delayed and IT IS the operator’s fault

Page 53

i Trip not started yet, and something’s gone wrong with your transport?

See *Your flight, other scheduled transport or overnight tour is delayed, cancelled or rescheduled before your trip starts* on page 36 for details.

What we mean by:

‘scheduled transport’

Scheduled transport means the following types of transport, just as long as they’re prepaid, scheduled and publicly available:

Flights

Cruises

Trains

Buses

Ferries

‘overnight tours’

Overnight tours means prepaid, scheduled and publicly available tours, as long as they:

- are overnight or longer;
- include accommodation and transport; and
- are primarily for sight-seeing purposes (rather than getting from A to B) or include a conference or training component.

i What we mean by ‘scheduled and publicly available’

We mean that the transport or tour must operate to a published timetable or schedule and be available to the general public. We don’t include privately hired, rented or chartered transport or tours – like privately organised tours, charter flights and buses, taxis, hire cars and rickshaws. So if **your** flight is cancelled or the Orient Express breaks down, chances are **we’ve got you** covered.

On the other hand, if **your** private jet doesn’t turn up, it’s fair to say **you’re** probably on **your** own.

3.1 You miss your flight, other scheduled transport or tour (and it's really not your fault)

1. You're covered when

You miss your flight, other scheduled transport or overnight tour when you are unavoidably and unexpectedly prevented from getting to your departure point on time due to one of the following:

Extra trip costs We'll pay any extra accommodation, transport, tour or tourist visa costs over and above what you would have had to pay had your trip been undertaken as originally planned – less any compensation given or due to you by anyone else (for example, the airline). See Cancellation, Rearrangement and Extra trip costs on page 76 for more detail on how Extra trip costs are calculated and what is and isn't covered.	Unlimited	Unlimited	\$10,000 for each primary traveller#

We work out the trip limit for this particular expense based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See [How do trip limits work?](#) on page 74 for details.

Other important things you need to know:

- **Trip limits:** A **trip limit** is the maximum amount that can be claimed per **trip** (in aggregate across all **events**) for each **expense** or **benefit type**. See [How do trip limits work?](#) on page 74 for details.
- **Excess:** An **excess** is deducted from any claim paid under this **event**. See [Your policy excess](#) on page 14.
- **More information:** See [Expenses and benefits explained](#) on page 75 for other rules that apply.

3. We don't cover you when:

- ✗ **You should have known there could be a problem** – we won't cover **you** if **you** buy **your** policy, or make travel arrangements, after a reasonable person in **your** situation would have known that their travel plans could be affected by the circumstances that led to **your** claim.
- ✗ **You didn't comply with official warnings or warnings in the media - and failed to take appropriate action as a result**
For example, if **you** hear that a cyclone has hit **your** next destination, and **you** don't check that everything is OK with **your** accommodation until the day before **you** travel there, **you** won't be covered if doing something earlier would have minimised or reduced **your** expenses.
- ✗ **Your claim arises from an act or threat of terrorism**

Always read the entire PDS in order to fully understand the conditions and exclusions that apply. In particular, see [Things we'll never cover](#) on page 71 and [Making a claim](#) on page 73.

3.3 Your flight, other scheduled transport or tour is delayed – and IT IS the operator's fault

1. You're covered when

Your flight, other **scheduled transport** or **overnight tour** is suddenly and unexpectedly delayed, rescheduled or cancelled when **you're** on **your** **trip** and it's the **operator's** fault. To be covered, **you** must be:

Delayed from departing by more than six hours (from your original departure time), **OR**

Unable to get to a one-off performance or function before it starts (such as a wedding or funeral), **OR**

i What we mean by:

'operator's fault'

Operator's fault means when the delay, rescheduling or cancellation is a result of things like maintenance issues, repairs, timetable changes, service faults, corporate takeovers or industrial activity other than a strike.

'one-off performance or function'

A **'one-off performance or function'** means a wedding, funeral, prepaid training course or conference, a prepaid sporting event, graduation or a prepaid concert or festival.

We won't pay for any bookings you have made for unused flights, other scheduled transport or overnight tours.</p>			
<p>Missed flight, other transport or tour amendment fees We'll reimburse you for any fees associated with amending a prepaid booking for a flight, other scheduled transport or overnight tour that you miss due to being delayed under this event.</p>	\$2,000 for each primary traveller# (combined limit)	\$500 for each primary traveller# (combined limit)	✘
<p>Getting to a one-off performance or function, tour or cruise on time We'll pay for the cost of alternative travel arrangements (at the fare class originally booked) to get you to a one-off performance or function, overnight tour or overnight cruise on time – less any refunds received or due to you. Note: We'll only pay for the cost of transport to get you there on time if the alternative arrangements the operator offers you won't get you there on time and would cause you to be delayed from departing by more than 3 hours from your original departure time.</p>

We work out the trip limit for this particular expense or benefit type based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See [How do trip limits work?](#) on page 74 for details.

- ✘ **Your overnight tour is cancelled due to insufficient numbers**
- ✘ **Your claim arose from fraudulent activity or because the airline (or other operator) is insolvent**
For example, you buy an airline ticket online from Really Cheap Airline, but when you turn up at the airport, you find there is no Really Cheap Airline and no airline ticket.
- ✘ **There was a mistake (or omission) in your booking**

The difference between our standard cover and the New for Old Luggage Option

There are two **expense types** you can claim under the **events** Your luggage and personal items are stolen or accidentally lost and Your luggage is accidentally damaged – Standard luggage costs and New for old luggage costs. The former is provided as part of our **standard cover**, however the latter – New for old luggage costs – only applies if you add specified **items** under our **New for Old Luggage Option** at the time you buy your policy.

Standard luggage costs

There are two types of limits that apply to our **standard cover** for luggage:

- Individual item limits** – Individual items of luggage claimed under this **expense type** are covered for their **depreciated value** only up to the item limits outlined in **Cover for your luggage and personal items** on page 19.
- Trip limits** – This limit applies to all claims made across all **events** in total for your entire **trip** for each **expense type**. The **trip limit** for Standard luggage costs are:

Comprehensive & AFT Plans Trip Limits	Basic Plan Trip Limit	Domestic Plan Trip Limit
\$12,000 for each primary traveller #	\$3,000 for each primary traveller #	\$4,000 for each primary traveller #

We work out the **trip limit** for this particular expense based on the number of **primary travellers** on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See **How do trip limits work?** on page 74 for details.

+ New for old luggage costs (optional cover)

Any **luggage items** you've paid an additional premium to specify on your policy under our **New for Old Luggage Option** are covered up to the lesser of their current replacement value or their full original cost rather than just their **depreciated value**.

For more information see **New for Old Luggage Option** on page 21.

More information on the cover we provide for your luggage

For details of what we mean by **luggage and personal items** ('luggage') and further conditions that apply, you must also see **Cover for your luggage and personal items** on page 19.

! Proving value and ownership when you claim

For each **luggage item** you claim, you must provide us with documents, such as a receipt, that show that you owned the item and what you paid for it. If you don't have the documentation for an item you need to claim for, please contact us.

4.1 Your luggage and personal items are stolen or accidentally lost

1. You're covered when

One of the following incidents happens to your luggage and personal items ('luggage') while you're on your trip:

Your luggage is stolen, OR

Your luggage is accidentally lost

To be covered:

- If your luggage was stolen from a motor vehicle, it must have been concealed and locked either in the boot or a compartment such as the glove box at the time it was stolen. Proof of forced entry to the vehicle and the locked compartment must be provided (e.g. in the police report).
- If your luggage was stolen from a private room (at your accommodation), safe or locker – proof of forced entry must be provided. (e.g. in the police report).
- If your luggage is stolen, you must report it to the police within 24 hours of discovery and get a written report from them. If their protocol is not to provide written reports, then get contact details for the station you reported the theft to as well as any report/event number they provide you with.
- If your luggage is lost, you must also report it to the police within 24 hours as it may have been handed in.
- You must also report both loss and theft to any other 'appropriate authority' – Depending on where your luggage was lost or stolen, you must report what happened to the appropriate authority and get a report in writing from them. Make sure you ask them to include details of what compensation – if any – they will provide you with in their report. For example, if your luggage was lost or stolen while in the care of an airline, report it to them and they will give you a Property Irregularity Report with all the information you need. If it was stolen from your hotel, report it to them and ask them for written confirmation.

If your phone or tablet was stolen or lost

Call your mobile phone provider as soon as possible and ask them to block your service by blocking the IMEI, and ask them to send you written confirmation that they have done so.

We work out the trip limit for this particular expense based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See **How do trip limits work?** on page 74 for details.

Other important things you need to know:

- Trip limits:** A **trip limit** is the maximum amount that can be claimed per **trip** (in aggregate across all events) for each **expense or benefit type**. See **How do trip limits work?** on page 74 for details.
- Excess:** An **excess** is deducted from any claim paid. See **Your policy excess** on page 14.

3. We don't cover you when:

- You weren't taking reasonable precautions with your luggage.** See **Taking care of your luggage while travelling** on page 21 for details.
- Your luggage wasn't travelling with you.** For example, it was sent with a courier, shipped as freight, sent by post, or checked in with somebody else on separate transport. However, we will cover you if the airline (or other operator) makes an error and, as a result of that error, your luggage doesn't travel on the same transport with you.
- Your luggage was lost or stolen while it was delayed, detained, seized or confiscated by Customs or other officials.**
- You were participating in a winter sport when your luggage was lost or stolen** and

4.2 Your luggage and personal items are accidentally damaged

1. You're covered when

Your luggage and personal items ('luggage') are accidentally damaged while you're on your trip.

To be covered you must:

Report the damage to an appropriate authority and get a written report, AND

Get a detailed repair quote from an authorised repairer.

For example, if your luggage was damaged while in the hands of a hotel, report it to them and ask them to confirm what happened in writing, including details of any compensation they will provide. Or if it was damaged by an airline or other carrier, they'll issue you with a Property Irregularity Report. In either case, don't forget to get a quote for getting your bag repaired.

! Make sure you keep the damaged item(s)

Don't throw away your damaged items — we may ask you to send them to us. We'll keep any items that can't be repaired when we pay your claim, as the property legally becomes ours. If it's your suitcase or a large item that is difficult to transport home, take clear, date-stamped photos of the item as proof of the damage.

2. What you can claim

If we agree that you're covered under this event, you can claim for the following expense types up to your plan's trip limits shown below (your plan is shown on your COI):

We work out the trip limit for this particular expense based on the number of primary travellers on the policy (and shown on your COI). All travellers, including dependants, are covered under this limit. See How do trip limits work? on page 74 for details.

Other important things you need to know:

- **Trip limits:** A **trip limit** is the maximum amount that can be claimed per **trip** (in aggregate across all events) for each **expense** or **benefit type**. See **How do trip limits work?** on page 74 for details.
- **Excess:** An **excess** is deducted from any claim paid. See **Your policy excess** on page 14.
- **More information:** See **Expenses and benefits explained** on page 75 for other rules that apply.

3. We don't cover you when:

- ✗ **You weren't taking reasonable precautions with your luggage.** See **Taking care of your luggage while travelling** on page 21 for details.
- ✗ **Your luggage wasn't travelling with you.** For example, it was sent with a courier, shipped as freight, sent by post, or checked in with somebody else on separate transport. However, we will cover you if the airline (or other operator) makes an error and, as a result of that error, your luggage doesn't travel on the same transport with you.
- ✗ **Your luggage was damaged while it was delayed, detained, seized or confiscated by Customs or other officials.**
- ✗ **You (or the person taking care of your luggage) were taking part in a sport or activity** and didn't satisfy or comply with our conditions. See **Cover for sports and other activities** on page 22 for details.
- ✗ **You were participating in a winter sport when your luggage was damaged** and
 - You didn't add the **Winter Sports Option** when you bought your policy; or
 - You did add the **Winter Sports Option** but **don't satisfy or comply with our conditions**. See **Your winter sports holiday** doesn't go to plan on page 69.
- ✗ **You (or someone else) were using specified sports or leisure equipment at the time the damage occurred.**

- ✗ The damaged **item(s)** was:
 - **Fragile or brittle** (e.g. Venetian glass);
 - Damaged as a result of a **mechanical or electrical breakdown** or malfunction;

4.3 Your luggage and personal items are delayed**1. You're covered when**

You arrive at your destination, but your luggage and personal items ('luggage') have been:

Temporarily lost or delayed by the airline or other operator, AND

The delay was longer than 12 hours

To be covered you must:

- **Report it immediately** – As soon as **you** realise that **your luggage** didn't arrive, report it to the airline or other carrier straight away and ask them to give **you** a copy of their Property Irregularity Report (PIR) confirming the delay, as well as any compensation they will give **you**.
- **Once your luggage is returned to you, get a receipt** – When **your luggage** finally arrives back in **your** possession, get written confirmation from the carrier confirming how long it was delayed. As this **event** doesn't apply for delays under twelve hours, and the **trip limit** increases after 72 hours, it's important we know the length of the delay.

What's an essential item?

This depends on the circumstances, but here are some examples. If **we** determine that an **expense** wasn't essential and reasonable, **we** won't reimburse **you** for it.

- **Examples of essential items:** reasonably priced underwear and t-shirt, regular toothbrush and toothpaste, deodorant;

Part C: Things we'll never cover

We won't cover you under any event where your claim arises from the following:

1. Things that are unlawful, illegal or reckless

We expect you to keep within the law and take good care of yourself and your luggage. We won't cover you under any event if your claim arises when you, a member of your travelling party, someone at home or someone you were in collusion with:

✘ **Commits an unlawful, dishonest, malicious, fraudulent or criminal act**

For example, if you get injured while trying to run out on a restaurant bill.

✘ **Doesn't follow official laws or warnings – from the government, airport officials or any other relevant or local authorities**

For example, if the ski slopes are closed due to a blizzard and you get injured skiing into a tree you can't see, or you ignore signs saying not to dive in a specific spot, and you dive anyway – and injure yourself.

✘ **Is under the influence of, or is addicted to, alcohol or drugs (legal or otherwise) – except where the drug is taken in accordance with doctor's advice**

For example, if you get drunk and pretend to be a tightrope walker and fall off the railing of your hotel balcony.

✘ **Is delayed or detained, or has luggage, passports or other travel documents, credits cards or cash seized or confiscated by Customs or other officials**

2. Specific medical situations

Some medical situations are just too risky for us to cover. We won't cover you under any event for any claim arising from:

✘ **When you (or a member of your travelling party) travel against medical advice or without a written medical confirmation**

If you (or a member of your travelling party) have any medical condition before starting your trip which may affect your ability to travel, you must get your medical practitioner's written confirmation that you (or your travelling companion) are fit to travel before departing on your trip. If you don't, we won't cover you for any claim arising from that medical condition.

✘ **When you (or a member of your travelling party) fail to comply with a directive, recommendation or warning of the World Health Organisation (WHO)**

For example, WHO has a list of vaccinations it recommends for different countries. If you don't have those vaccinations and then contract a disease that could have been prevented by that vaccination, there is no cover under your policy.

✘ **Your intentional, self-inflicted bodily injury, suicide or suicide attempts or other self-harm.**

✘ **Specific medical conditions and other medical situations**

We will not cover you for any claim that arises from sexually transmitted diseases; elective or cosmetic surgery that is not medically necessary (and any complications that arise from that surgery); gastric banding, gastric sleeve or gastric bypass surgery (and their complications); fertility treatment and any resulting complications (unless pre-approved by us); and elective pregnancy terminations. This exclusion applies regardless of whether you, your travelling companion, a close relative, someone at home or any other person has the medical condition.

✘ **Existing medical conditions**

There is no cover for any claim that arises from:

- you having an existing medical condition that isn't either automatically covered or added to your policy as a specified medical condition; or
- the existing medical condition of your travelling companion, a close relative, someone at home or any other person – except as provided by the [Existing Medical Conditions Claim Cap](#) (see page 43).

See [Travelling with an existing medical condition](#) on page 15 for more information.

3. Claims and expenses you can't prove

Like all insurance companies, we need to protect our business from fraud, so we'll only pay claims where you can provide us with enough proof to support your claim. We won't cover you under any event when:

- ✘ **You aren't completely truthful with us**
If you don't answer our questions honestly or don't disclose something that is relevant to your policy or any claim you make, then we won't pay your claim. See [Your duty of disclosure](#) on page 11 for more details.
- ✘ **You act fraudulently in any way** or encourage anyone else to give us fraudulent information in relation to your policy or claims
- ✘ **You can't give us evidence of the event or expenses you're claiming for**
Depending on what's happened, we may need different types of evidence to support your claim – we'll let you know what we need when you claim. For example we'll typically need to see:
 - documents that independently verify the facts, such as medical reports, proof of travel, airline confirmation of delays and cancellations, and police reports; and
 - your original receipts, repair quotes and other documents supporting the expenses you're claiming.
- ✘ **You've already been (or could be) reimbursed by someone else for the expenses you're claiming**
For example, if your airline pays to put you up in a hotel after cancelling your flight, you can't also claim the hotel cost from us.

4. Epic disasters and global danger zones

It's common sense that you should avoid these, but we like to spell them out anyway. We won't cover you under any event if your claim arises when:

- ✘ **You're travelling to a country or region that the Australian government has listed as a 'Do Not Travel' zone**
Go to the Department of Foreign Affairs and Trade's [Smartraveller](#) website for a list of 'Do Not Travel' zones. See [Your destination is declared a 'Do Not Travel' zone](#) on page 66 for details on what to do if your destination is declared a 'Do Not Travel' zone while you're on your trip.
- ✘ **You or a member of your travelling party do not comply with official advice or warnings**
For example, if you don't follow advice or warnings in the mass media issued by a government, or a government body (such as the police or Bureau of Meteorology) or a governmental organisation (such as the UN, World Health Organisation):
 - against travel to specific locations within a country;
 - about a contagious disease (whether likely or actual);
 - about bad weather or a natural disaster;
 - about a strike, riot, terrorist act or civil commotion (whether likely or actual).
- ✘ **You or a member of your travelling party put yourselves in harm's way when there's a riot, strike or similar event**
Specifically, you're not covered if you or a member of your travelling party travel to, take part in or remain at the site of a rebellion, riot, strike, civil commotion or terrorist act.
- ✘ **War occurs**
We won't cover any claims that arise from acts of war (whether declared or not), civil war, rebellion, revolution, insurrection, an uprising or taking of power by the military.
- ✘ **Pandemic or epidemic breaks out**
We won't cover any claims that arise from an epidemic or pandemic breaking out.
- ✘ **Nuclear materials, weapons of mass destruction, biological or chemical weapons are involved**
We won't cover any claims that arise from:
 - a nuclear reaction or contamination from nuclear weapons or radioactivity;
 - biological and/or chemical materials, substances, compounds or the like which are used directly or indirectly for the purpose of harming or destroying human life and/or creating public fear.
- ✘ **Your claim would expose us to sanctions**
We won't cover you if the event you are claiming under, or a liability to pay a claim under an event, would expose us and/or our reinsurer(s) to any:
 - sanction, prohibition or restriction under United Nations Security Council; or
 - sanctions, laws or regulations of the European Union, United Kingdom or the United States of America.

Part D: Making a claim

1. What to do if you need to claim

As soon as you reasonably can:

1. **Identify which event you're covered under** – see [Events \(when you're covered\)](#) on page 26 for a list of covered events.
2. **Read through the event and any related sections** – to understand when you're covered, what expenses (and/or benefits) you can claim, and any rules and conditions that apply.
3. **Follow the 'What to do when' checklist** for the relevant event on our website at: nationalseniorsinsurance.we.com.au/checklists.
4. **Keep your receipts, itineraries, reports, booking and cancellation confirmations** – including details of any refunds received or due to you for any affected transport, accommodation, tours or events. If you don't do this, we may either not pay your claim or reduce how much we'll pay.
5. **Go to** nationalseniorsinsurance.we.com.au/claims for instructions on how to claim.
6. **Collect your documents and** complete the claim form.

What events can you claim for?

Your policy covers you for certain events such as when [You miss your flight, other scheduled transport or tour \(and it's really not your fault\)](#). See [Events \(when you're covered\)](#) on page 26 for details of which events you're covered for and what you can claim for if they happen.

There are general conditions and exclusions that apply to all events (see [Things we'll never cover](#) on page 71) – and there are also specific conditions that apply to each event which determine when you're covered – and when you're not.

If you can't find an event that describes what happened to you but you want to double-check, contact us for help.

What evidence will you need to provide?

The documents you need to provide to support your claim will vary, depending on the event and expense and benefit types you're claiming for. The [What to do when](#) checklists on our website (nationalseniorsinsurance.we.com.au/checklists) list the main evidence you'll need to gather for each event – but we may also ask you for extra documents or information once we receive your claim.

If the documents you provide aren't in English, we may ask you to translate them. And if you submit your claim electronically, you must keep the originals of all documents that you attach to your claim, as we may need you to send them to us later.

Any costs incurred as part of making a claim (for example, postage, translation, getting a repair quote) will be at your expense and aren't covered by the policy.

How will we pay you?

All claims are calculated in Australian dollars. If you claim for expenses in a foreign currency, we'll calculate the Australian dollar equivalent using the exchange rate on the date you incurred the expense. There is no cover for any changes in the value of any expense due to currency fluctuations.

We, at our complete discretion, will pay you in one of the following ways:

- deposit allowances or expense reimbursements directly into your Australian bank account (in AUD);
- pay for the repair of any damaged items;
- give you a gift card to use for replacing any items of luggage; or
- replace any luggage items with the nearest identical item.

In the case of medical claims, we may choose to pay some or all of your expenses directly to the person or company where the expenses were incurred (for example, hospital bills).

! No event – no cover

Your policy covers you for expenses arising from some common events that happen to travellers, but like most insurance policies, we don't cover absolutely everything that can go wrong, as to do so would dramatically increase premiums. If you're not covered under one of the events in the [Events \(when you're covered\)](#) section on page 26, there's no cover under your policy.

For example, if you change your mind about travelling to Bali because a good friend just got back and had a bad experience with Bali belly, there's no event that covers you changing your mind, and therefore there's no cover under your policy if you decide to cancel.

2. How do trip limits work?

The 'trip limit' is the maximum you can claim for a particular expense or benefit type for any and all events across all claims that relate to your trip in the aggregate. The trip limit for each expense (or benefit) type is shown in the **What you can claim** section under each event. Some trip limits are flat dollar amounts, some are unlimited, and some are calculated based on the number of primary travellers (all travellers other than dependants) on your policy.

We may pay less than the trip limit depending on the amount of your claim or as a result of the application of any sub-limit, item limit, combined limits or other limit.

Trip limits expressed as 'for each primary traveller'

Where a trip limit is expressed as a dollar amount 'for each primary traveller', this means we calculate that trip limit based on the number of primary travellers shown on the COI. Primary travellers are all travellers shown on your COI other than dependants. Even though dependants aren't factored into the calculation of the amount of such trip limits, they're still covered by and subject to the trip limit (unless otherwise indicated for the specific expense type). Further, any expenses and benefits you claim for a dependant count towards the relevant trip limits.

What we mean by 'combined limits'

Some expense types share a single trip limit with other expense types. These shared trip limits are marked as having a 'combined limit'. This means that the maximum you can claim for the expense types grouped under that combined limit for any and all events across any and all claims made under your policy is the combined limit shown.

Are there any other limits that affect how much you are covered for?

Yes. There are item limits for individual pieces of luggage which limit how much you can claim. There are also sub-limits – or maximum amounts – for certain categories of expenses.

For example, under the Comprehensive plan, luggage claims have a trip limit of \$12,000 for each primary traveller. However, within the 'Standard luggage costs' expense type, you can only claim up to a maximum amount of \$2,100 for jewellery. Any item limits or maximum amounts are referenced within each event.

i Example - how the 'for each primary traveller' trip limit works

Alex and Chris are taking their two kids (Marcus, aged 6, and Louise, aged 8) to Disneyland. Alex and Chris are listed on their Certificate of Insurance (COI) as 'Insured Primary Travellers'. Marcus and Louise are shown as dependants. Unfortunately Louise likes the rock candy at Disneyland a little too much and ends up chipping a tooth. Alex and Chris take her to the local dentist the next day, who puts in a temporary filling to relieve her pain and tide Louise over until they can get her home to her regular dentist. Dental appointments in the US can be expensive, and this costs \$600.

The trip limit for dental expenses on their policy is calculated as follows: there are two primary travellers, so the trip limit is 2 x \$1,000 for a total of \$2,000. Alex and Chris selected the Excess Buy-out Option at the time they bought their policy, so there's no excess payable, and they are entitled to a full refund of the \$600. This leaves \$1,400 that they can still claim against the policy for any emergency dental treatment the rest of the family might need on the trip.

3. Expenses and benefits explained

If we agree that you're covered under one of the events in the [Events \(when you're covered\)](#) section, the amount we pay you will be made up of the expense and/or benefit types that you are eligible to claim for. Here's what we mean:

Expenses

Means an out-of-pocket cost you've incurred that can be claimed under a specific event. Expenses must arise directly from the specific event, and are listed in the [What you can claim](#) section for each event in [Part B](#). Examples include Overseas medical costs and Cancellation costs.

Benefits

Means a cash amount paid to you under your policy when you satisfy certain criteria related to a specific event occurring. The amount is not necessarily directly related to any expense that you incur. An example is the 'In-hospital allowance' which is a daily amount paid after you've been in hospital for more than 48 hours to cover incidentals like movies and internet connection.

Which expenses and benefits can you claim?

Each event lists the expenses and benefits that you can claim if we agree that you are covered under a specific event. These are detailed within each event in the [What you can claim](#) section along with any specific conditions that apply if you are claiming for those expenses or benefits. We also detail the specific out-of-pocket expenses that are included under each expense type, as well as information on when any benefit types are payable and how they are calculated. There's no cover for any expenses or benefits other than those listed for each specific event.

a) General conditions that apply to all expense and benefit types:

- **Avoid or minimise your expenses** – we only pay expenses which are both reasonable and necessary and which we approve for payment. So if you don't take steps to avoid unnecessary expenses, we either won't pay your claim or we'll reduce the amount we pay.
- **You can only claim for listed expenses** in the [What you can claim](#) section for a specific event. Even if other expenses arise directly or indirectly from a specific event – but they're not in the list – you're not covered.
- **You can only claim for listed expense types** that arise directly and unavoidably from the event.
- **You need to show evidence of all expenses that you are claiming.** For every expense claimed, you must provide us with the original receipt (or invoice) as proof of purchase and/or ownership. In limited circumstances, we may accept alternatives to the original receipt as proof of purchase. Contact us if you're unable to provide original receipts.
- **All expenses must have been incurred within 12 months after the event.** This condition doesn't apply if your claim is made under the event [You are being sued \(personal liability\)](#) on page 67.
- **You must submit your claim as soon as is reasonably possible.** If you don't do this, and this affects either the total value of your claim or our ability to recoup money from someone else (for example, an airline), then we may either not pay your claim or reduce how much we'll pay.
- **We won't pay expenses you've already been reimbursed for.** For example, if your airline pays for your hotel after a flight delay, you can't also claim the hotel cost from us. However, if they only pay for half your hotel costs, you may be able to claim the difference from us.
- **You can only claim for each individual expense once.** If you incur an expense that could be claimed under more than one event or expense type, you can only claim for it once. So if you break your leg on the last day of your trip and have put back flying home for two days – and at the same time bad weather means your flight is cancelled – we'll only cover any Extra trip costs or Cancellation costs once for that two day period.
- **We won't pay for any search and rescue charges.** We provide cover for Medical evacuation and Medical repatriation costs for certain events listed in [You need medical help](#) on page 27. But we won't cover search and rescue charges that arise under any event in this policy.
- **We won't pay for any consequential loss, including (but not limited to) loss of enjoyment.** Insurance can help protect your finances if something goes wrong, but it's not about protecting your dreams. So if you break your leg on the first day of a ski trip due to an accident and have to sit around the lodge, we'll cover your Overseas medical costs, reimburse you for your unused ski passes and even give you a room service supplement if you get stuck in your hotel room for more than two days. But we won't compensate you because you didn't get to have fun skiing every day as planned.

b) Cancellation, Rearrangement and Extra trip costs explained

Many of the **events** under **your** policy may allow **you** to claim for Cancellation costs as well as Rearrangement or Extra trip costs (see [Summary of cover](#) on page 2). Here's what we mean by these **expense types** and some conditions that apply:

Cancellation costs

This is the value of any unused, pre-booked accommodation, prepaid transport, prepaid tours and prepaid **public events** (such as a concert or play), including the cost of reimbursing frequent flyer points, less any refunds **you** received or are due to receive. It also includes cancellation fees (for example, travel agent cancellation fees) and up to \$2,000 for tuition or course fees or conference fees (less any refunds **you** received or are due to receive).

Claiming travel agent cancellation fees

If **you** are claiming for travel agent cancellation fees as part of **your** Cancellation costs, we'll pay up to 10% of the amount paid to the travel agent or \$2,500 for each **primary traveller** (whichever is less) when **you've** either paid in full or paid the maximum deposit at the time of the cancellation. We won't pay any travel agent's cancellation fees above the level of commission or service fees normally earned by the agent.

Rearrangement costs

This is the value of any costs to rearrange any pre-booked accommodation, prepaid transport or prepaid tours, including bookings made with frequent flyer points, prior to leaving on **your trip**. The cost to rearrange **your trip** (including any cancellation costs related to the same **event**) must be the same or less than what it would have cost to cancel **your** whole **trip** or the **trip limit**, whichever is less. If it's more than this, we may either not pay **your** claim or reduce how much we pay.

? What about my frequent flyer points?

If **you** paid for part or all of a claimable **expense** using frequent flyer points, we'll reimburse their value when we pay **your** claim. To find out how we calculate the value of **your** frequent flyer points, go to nationalseniorsinsurance.we.com.au/frequentflyerpoints.

i The difference between cancellation and rearrangement costs - real life example

It's the day before **you** leave on **your trip** to Phuket and **your** flight to Bangkok is delayed by 24 hours due to a hurricane. **You** have to cancel **your** first night's accommodation at the last minute, and the hotel won't give **you** a refund. The amount **you've** prepaid for that night's accommodation is a cancellation cost. If **you** also have to pay a small fee to rearrange a connecting flight from Bangkok to Phuket, this is a rearrangement cost. **You** can claim for both of these **expenses**.

Extra trip costs

This is the difference between what **you** would have paid for **your** transport, tours, accommodation and tourist visas if **your trip** had been undertaken by **you** as originally planned – and what **your trip** actually costs due to the occurrence of an event. We'll also cover any extra meals, but only where the expense is incurred on or after **your** planned **trip** return date. For all Extra trip costs, we'll only cover an expense covered by **your** policy if **you're** actually out of pocket. So if the airline gives **you** a meal voucher, **you're** not out of pocket.

What's an Extra trip cost?

If the expense happens	Within the dates of your original trip	On or after your planned return date
You can claim for	Any reasonable and necessary extra transport, tour and accommodation costs, over and above what you would have had to pay if your trip had been undertaken by you as originally planned. It includes any fees you may be charged to change a booking as well as any extra tourist visa costs. There's no cover for meals within the dates of your original trip .	All reasonable and necessary extra transport, accommodation, tourist visa and meal costs including any costs to change any pre-booked transport home . We'll also reimburse the full cost of extra accommodation and meals. But remember, we'll only reimburse you at a similar level of cost to that which you incurred on your trip prior to the event.
For example	On your way to Edinburgh from Melbourne via London, a strike has grounded all planes out of Heathrow. You have to spend your first night in London, instead of Edinburgh. You're able to cancel the first night at your Edinburgh hotel (which would have cost you \$250) without penalty. But the only comparable hotel room you can find in London is \$350. You can claim the extra \$100 for your first night's hotel cost, as it's more than what you had originally budgeted to pay for the night. The strike continues for a second day, so you decide to cancel your flight and catch the train to Edinburgh instead. Your flight would have cost you \$400, and the airline gives you a full refund for this. The rail ticket costs \$300. So because this is less than the \$400 you had budgeted to pay for your flight from London to Edinburgh, there are no extra costs to claim.	You're in New York, enjoying the Big Apple, when Snowmageddon hits! You were due to fly home to Perth the following day, but all airports are closed. You end up spending an extra three nights in New York, beyond what you had planned. Luckily, the hotel you were in is able to extend your stay . We cover the full cost of your extra three nights' accommodation, plus any extra meals you eat after the time you would have originally left for the airport.

Other conditions that apply to Extra trip costs (and Extra accommodation costs):

- **Transport costs must be at the same (or lesser) fare** class, and accommodation must be at the same (or lesser) standard as the remainder of **your trip**. If it's not, we may decline **your** claim or reduce how much we pay.
- **You can only claim for the reasonable cost of meals** that occur after the time **you** were originally to have departed for **your home** in Australia – that is, after **your trip** originally should have ended.
- **If you didn't have accommodation or transport arranged**, and these costs are incurred during the original dates of **your trip**, there is no cover for those particular expenses. The only exception is when **your** claim is for an event that involves returning to Australia earlier than **your** originally planned return date where **you** didn't have a flight back to Australia already booked. In that instance we'll deduct from **your** total claim the cost **you** would have normally paid for an economy class airfare at the carrier's regular published rate for the journey **home** or **our** actual cost incurred, whichever is less.
- **You may claim for the cost of phone calls** while **you're** on **your trip**, but only for calls to **our** Emergency Assistance team or calls to carry out the actions listed in **our** checklists at nationalseniorsinsurance.we.com.au/checklists. We don't cover data charges, so be careful with global roaming.
- **If you receive, are due to receive or are entitled to any other compensation to cover your Extra trip costs from any other person or source** – such as from an airline – we'll deduct this from the amount we pay **you**.

c) Conditions that apply to expenses claimed for medical events

Medical expenses we won't cover

The **expenses** and **benefits** that you can claim are detailed in the [What you can claim](#) section within each **event** – and you're only covered for the **expense** and **benefit** types listed. But just so we're clear, we'll never pay for any of the following:

- ✘ Ongoing medication and treatment (that you were undergoing prior to your trip)**
 We won't pay for any medication you were taking (or other courses of treatment you were undergoing, such as fertility treatment) at the time **your trip** started. This includes any costs associated with getting a prescription for ongoing medication while you're away. Plan ahead, and take a sufficient supply with you on **your trip**.
- ✘ Medical and dental costs in Australia**
 In all cases, when you're in Australia, you are responsible for any medical and dental costs incurred in Australia. That's because there are strict government regulations around who can and can't cover medical costs in Australia. We are a specialist travel insurance provider and aren't licensed to pay for medical costs in Australia. You should treat these **expenses** as you normally would for any other health-related **expenses** you incur when you aren't travelling – for example, from your private health insurer or Medicare.
- ✘ Complementary and alternative medicines**
 We won't pay for complementary or alternative medical treatments such as naturopathy, homeopathy, acupuncture or reiki.
- ✘ Medical tourism-related expenses**
 We won't pay for any **expenses**, medical or otherwise, that **arise** from treatments or procedures (including related complications) that you choose to get on **your trip**.
- ✘ Childbirth-related expenses**
 We won't pay for the cost of regular antenatal care, childbirth and any costs associated with the care of a newborn child.

4. Your responsibility to claim from somebody else

In some circumstances, you may be able to claim **your expenses** from someone else before making a claim with us. This may be an airline that loses **your luggage** or another insurer covering you for the same **event**. In these situations, you must:

1. **Let us know if there's anyone else you can claim from**
2. **Claim from the other person or company first:**
 - If there's a difference between what they'll pay you and the amount we work out that you're entitled to receive under your policy, we'll pay the difference (provided your claim is approved). If you're having trouble claiming from them, we can help you with this.
 - By entering into the insurance contract, you agree that we may also, at our discretion, undertake control and settlements of any legal proceedings for our own benefit to recover compensation or secure indemnity from the other person or company in your name, and on your behalf in respect of anything covered by this policy. This is known as 'subrogation'.
 - If the other company you can claim from is an insurance company, we may write to them on your behalf to ask them to contribute towards your claim. This includes, but isn't limited to, any insurance available through or as part of your contract with your credit card provider. Please make sure you provide us with details of this as part of your claim.
3. **Give us any information we ask for to help recover money from the other person or company**
 - You must assist us and give permission for us to use any means possible to recover compensation or secure indemnity from the other person or company to which we may become entitled or subrogated upon us paying your claim under this policy, even if we have yet to pay your claim, and whether or not the amount we pay you is less than full compensation for your loss. Our right of subrogation exists regardless of whether your claim is paid under an indemnity clause of this policy or otherwise.
 - We'll apply any money we recover from someone else under a right of subrogation in any manner we determine.
 - Once we pay your total loss, we'll keep all money left over. If we've paid your total loss and you receive a payment from someone else for that loss or damage, you must pay us the amount of that payment up to the amount of the claim we paid you.
 - If we pay you for stolen or damaged property and you later recover the property or it's replaced by a third party, you must pay us the amount of the claim we paid you.

Part E: Additional information

1. Changing your policy

Staying longer? Or need to change your travel dates?

Extend or buy a new policy?

Depending on **your** circumstances, if **you** want to change the dates of **your** cover, **you'll** need to either extend **your** policy or buy a new one (for the additional days). Here's when **you** can extend **your** policy:

- **if all travellers are currently within the plan age limits**
 - such as if **you** are travelling with a **dependant** who is still under 25;
- **if you haven't claimed and don't intend to claim** under an event that has already occurred;
- **if your health** (and any other relevant circumstances that might foreseeably lead to a claim) hasn't changed; and
- **if you don't have any specified medical conditions** covered under **your** current policy.

If **you** don't satisfy all these criteria, don't worry; **you** can apply to buy a new policy for the additional dates.

If **you** don't qualify for an extension and have to buy a new policy to cover **your** additional travel days, the Product Disclosure Statement (PDS) and the rates in use at the time **you** buy **your** new policy will apply.

Already travelling? A 72-hour waiting period may apply.

It can be hard to say goodbye – so **we'll** usually extend **your** policy if **you're** not ready to come **home** from **your** trip. But make sure **you** extend **your** policy before it expires (at 11.59pm AET) on the return date shown on **your** COI, to avoid the 72-hour waiting period that applies to a new policy.

You can only extend a policy up to a maximum of 12 months from the original start date shown on **your** COI (or up to 6 months on a domestic policy).

Bringing the kids?

If **you** decide **you** want to bring the kids along after all, simply contact **us**, and **you** may be able to add them to **your** policy.

If **your** children (and **grandchildren**) travel with **you** for the majority of **your** trip, **we'll** cover them under **your** policy as **dependants** at no extra charge, provided that:

- **they are under 25** at the time **you** buy **your** policy;
- **they don't have a full time job**; and
- **you haven't claimed and don't intend to claim** under an event that has already occurred.

To be covered all **dependants** must be listed on **your** COI as Insured Dependants. Further, if **your** **dependants** have any **specified medical conditions**, **you** will have to pay an additional premium for these.
